Start

Network of
participants

More than 400 asset managers and 50 banking groups use our service to match trades, agree netting and utilize custodian messaging, creating a strong network of participants who communicate their post-trade decisions through our platform.

Vast network of market participants and technologies

TradeNeXus is part of the GlobalLink ecosystem which deploys the latest technologies to facilitate user's execution to post-trade workflows.

GlobalLink Digital is an award-winning platform which allows users to create interoperable and customizable trading and workflow solutions, enabling users to display both TradeNeXus and FX Connect user interfaces in a single dashboard.

FX Connect is an award-winning execution platform that offers best-in-class execution and allocations features such as Auto Pilot and Automated Order Router to automate trading workflows.

Manage the trade lifecycle

Identify failed trades and exceptions quickly through alerts and notifications and view your post-trade matches and confirmation on a centralized dashboard with direct integration to FX Connect®, CLSTradeMonitor and order management systems such as Charles River Development (CRD).

with FX Connect, CRD

and TradeNexusSM

Integrated
workflows and
dashboard

TradeNeXus is among the first post-trade services to partner with CLS to integrate CLSTradeMonitor information directly into our centralized post-trade dashboard, providing you with a holistic view of all CLS Settlement across accounts and custodians.

Users of FX Connect and CRD can elect to send trades to TradeNeXus through our direct integration workflow without the need to manually intervene. Customized rules can be applied to ensure accurate and timely matching and settlement.

TradeNeXus provides a wide range of proprietary integration methods to meet clients' unique needs including through APIs, web services and local applications to automate the post-trade lifecycle.

About TradeNeXus

TradeNeXus is our award winning suite of post-trade solutions designed to facilitate automated exception-based management of foreign exchange (FX) transactions for confirmation, settlement and clearing. With TradeNeXus, you have access to a consolidated view of all post-trade activities in a single, easy-to-use dashboard, combining efficiency across post-trade matching, reconciliations and reporting requirements.
